The Charges Against Dr. Leon. NO LAW TO COVER THE CASE. This morning in the police court the case of

the United States vs. Dr. Leon, charged with attempt to commit an abortion, being called, Mr. Harrington stated that with the permission of the court he would enter a nolle prosequi in this case. From the statement of the prosecuting witness it appears that on the 26th day of May last defendant, at the request of the pros-ecuting witness, by means of instruments and drugs, attempted to procure her miscarriage. Upon this state of facts he was bound to say to is honor that under our laws it presents no technical crime, however offensive it is to religion or morality. The law provides punish-ment only "in case of the death of said woman, or in case of the death of the child." The court will, therefore, observe that in the event of conviction, no judgment could be pronounced or enforced. He, therefore, with rejuctance mov-ed that the complaint be dismissed.

Judge Snell, in response to this motion, said: In consenting to the entry asked for by the district attorney, it may be proper to say that the court has had occasion to notice the very serious defect in the criminal code of this District which is prominently developed in this case. So important was it, that he caused to be presented to the chairman of the judiciary committee of the first legislative assembly a copy of a statute in force in one of the states, with suggestions that something of the kind should be provided for this territory. The statute in force here prescribes the offense in the case of death to the mother or injury to the offspring-neither of which is established in this case. The attempt to commit the offense by doing any act tending to accomplish it in mode, is not provided for or made an offense, and therefore the court reluctantly consents to the entry requested by the attorney, hoping that the legislature will give early attention to this important omission and defect in the criminal law." Defendant is discharged.

Mr. Harrington remarked that it had come to his observation that the commission now en-gaged in revising the code for this District had this subject under consideration, and were preparing a chapter covering such cases as this one before them, which he hoped would soon THE CHORAL SOCIETY CONCERT .- Last even-

ng this society gave a complimentary concert to its passive members, at Lincoln Hall, with a full chorus, which appeared to better advan-tage than on any former occasion. The proramme was filled exclusively by the soci The hall was crowded to overflowing, and at the close of the concert the audience were loud in their enthusiasm over these Washington favorites. Washington city may justly feel proud of the Choral Society. Under the direction of Mr. Sherman, their ta'ented con-ductor, they have made an advance which places them first among the American male singing societies of the country. The programme was rich in the extreme last night. and no particular chorus can be singled out as better than the others. Mr. Sherman's piano solo was enthusiastically encored. The Beetheven Octette, always well received, responded to an encore in their ever-pleasing waltz. Mr. Chase sang Shubert's "Wanderer." The tenor obligato of Mr. Burnett, in the chorus "I think of thee," was sung with artistic effect, the chorus as an accompaniment being finely sung. We hope the public will cordially hall the reappearance of the Chorals when the win-

FREDERICK DOUGLASS' Loss .- The house of Frederick Douglass, at Rochester, New York. burned on Saturday night last, is described as an elegant mansion, with barn and outhouses, on Douglass Hill, in the suburbs of that city. The building was creeted by Mr. Douglass twenty-two years ago, and has been occupied by him as a residence since that time. It was built of wood, and was an easy prey to the devouring element. Mr. Douglass and family were in this city, and the house was occupied by his son-in-law, W. Sprague, and family, who had a narrow escape from death, so rapid was the progress of the fire. The furniture saved was but of small value, excepting the valuable library and pri-vate papers. A cow, worth \$100, and the coaches, buggies, harness, &c., in the barn were con-sumed, but Mr. Sprague succeeded in rescuing the horses. The fire originated in the barn and was undoubtedly the work of an incendiary, as there has been no light used in this building since last winter. Mr. Douglass' residence was surrounded by a beautiful grove, which was entirely destroyed. \$11,600 in United States bonds, which was in the house, were burned.

SUICIDE OF AN EX-BAR-TENDER, BY DROWN-ING .- Yesterday afternoon a man named Henry Newt, formerly bar-keeper in the Star and Garter restaurant, while suffering from a fit of mania-a-potu, jumped into the Eastern branch at the foot of K street east, and was drowned. He had of late exhibited signs of a diseased mind, and his friends yesterday had him conveyed to police headquarters, where Dr. Eliot examined him, and expressed the opinion that excessive drinking was the cause of his suffering, but that he was not insane. He was therefore set at liberty, and at once proceeded to the Congressional cemetery, where he strolled about for some hours, and Mr. Lusby, the sexton, noticed something eccentric in his manner. Finally he wandered off in the direction of the bridge at K street, where he jumped into the water, as stated. Word was sent to the eighth precinct station house, and efforts made to recover the body, without success. He was a single man, without relatives in this city, and was about

THE POTOMAC WATER was shut off last night from the entire District to give the workmen under General Babceck an opportunity to make a connection of the 36-inch main at Foundry Branch, just beyond Green Springs. The work-men have been busy all this morning in making this connection, and at 2 o'clock this afternoon a messenger from that point arrived at the office of General Babcock with information that the work was progressing finely, and the probabili-ties were that they would be able to let the water on this afternoon, but no hour was stated. Should any unforscen circumstance occur by which the work will be delayed, it will behoove every one to use great caution as to fire, as the fire department would be almost useless without the Aqueduct water in case of a conflagration. The water was shut off from the upper part of Georgetown last evening at 6 o'clock—two hours before the advertised time, to the great inconvenience of housekeepers. This was very bad

Father Wigett's, of St. Joseph's, and Rev. Father Boyle, of St. Peter's, read the burial service and addressed the congregation, paying a high tribute to the memory of the deceased.

RAILROAD ACCIDENT.—John Taylor, colored, one of the hands on a train of the Baitimore and Potomac railroad, yesterday had one of his legs broken, and was otherwise injured, while leaning from the car, a switch striking him. ALEXANDRIA.

A RELIABLE CLERK .-- An Alexandria clerk obtained permission of his employer to visit Baltimore on Saturday last, promising to be back and open the store as usual on the following Monday morning. He paid the visit and reached Washington on his return Sunday night, but accidentally failed to reach the depot in time to take the last Alexandria train. Having no friends in Washington, he walked its streets until three o'clock in the morning, and then, taking off his boots, as they hurt his feet, and throwing them across his shoulder, he started on foot for this city, reaching here about five o'clock, foot-sore and wearied, but sustained by the proud consciousness of having done his duty and kept his promise. BAD PROSPECTS .- Reports from the counties adjacent to the city represent that the oat crop will be nearly an entire failure; that the wheat, even should it head out well, will be difficult to garner, on account of the shortness of the stem; that the grass is nearly dead, and that the cut-

worm is seriously injuring the corn. A GREELEY RATIFICATION MEETING .- Ar rangements are in progress for a grand Greeley ratification meeting to be held here at an early day. Among the signers of the call are several who have heretofore affiliated with the radical P. AND P. R. R.—A party of civil engineers passed through here this morning, via the W.

and O. R. R., for Middleburg, to survey a route for the proposed Piedmont and Potomac rail-PLENTIFUL supplies of sturgeon, and a few shad, caught by the gillers, continue to arrive here. The sturgeon sell at \$2 a piece and the shad at from \$10 to \$11 per hundred.

THE PIMLICO RACES-Spring Meeting of the Maryland Jockey Club .- The Pimlico grounds, near Baltimore, presented a lively and exciting aspect yesterday afternoon, the occasion being auspices of the Maryland Jockey Club. The festivities opened with a running race, mile heats, free for all ages, no distanced horse excluded from starting until after the third heat, in which there was to be no distance. The club offered a purse of \$300, of which \$250 was to the first and \$50 to the second horse. Five horses were entered. After one false start the nags got off well together on the second trial, Hanover in the lead, closely followed by John Merryman. Before reaching the first quarter pole, Grace Rogers was close on the heels of John Merryman. The mare at this point shied and tripped up Tucker, who fell into the middle of the track, Rosa Bell, who was in the rear, making a clear jump over the prostrate form of Figure 1. jump over the prostrate form of Tucker, and the four nags kept on at a killing pace. Tucker remained motionless on the track, his little colored rider by his side. A rush was made across the field by the crowd, when the fallen horse was found to have broken his neck. The carcass was quite the drawn from the track in order to allow the second heat to proceed. Hanover won the race in 1.56. The second heat was of course a contest between Merryman and Hanover. At the first quarter John Merryman shot ahead and commenced making a gap which widened to the end of the race, tancing his competitors and passing the string in 1.56%, winning the purse of \$250, Hanover being entitled to \$50.

The tournament appeared to be the great object of interest among the ladies. The winning knights were Wm. Grason, (Knight-Before-Last,) John Grason, (Knight of Harlem,) Chas. Rogers, (Knight of Lancaster,) and E. P. Gwynn, (Knight of Prince George's.) Mr. Samuels, of Virginin, who appeared as the Unknown; Mr. Patterson, (Knight of Oak Grove; W. D. Wall street and business interests generally are becoming apathetic in regard to the Washington treaty, and it is thought that any result to the negotiations would have comparative's little influence on current movements either in or out of Wall street.
